

ABHINAND V

Computer Science Student | Python and C Programmer

Kankol, Kannur District, Kerala | abhinand14789@gmail.com | +917510350371 | linkedin.com/in/abhinand-v

PROFILE

Enthusiastic and dedicated Computer Science student with strong interest in software development, web technologies, and problem-solving. Skilled in C, Python, HTML and JavaScript. Eager to apply technical skills in real-world projects, contribute to team goals, and grow as a professional developer.

PROJECT EXPERIENCE

Mobile Phone Price Prediction

Internship Project – ICT Academy of Kerala (1 Month AI & ML Internship)

- Developed a machine learning model to predict mobile phone prices based on features like RAM, battery, camera, and storage.
- Performed data preprocessing, feature engineering, and applied algorithms such as Linear Regression, Random Forest, and Decision Trees.
- Built a simple interface to make predictions user-friendly.

Library Management System

- Developed a complete library system with admin and user panels.
- Implemented features like book management, renting/returning, login system, and user profile.
- Designed a clean, responsive UI to enhance usability.

EDUCATION

B.Tech in Computer Science & Engineering

College of Engineering Trikaripur

2022 – Present

Higher Secondary Education

GHSS | Kerala Board of Secondary Education | **98.25%**

2021

SSLC

Alphonsa Central School Edat | CBSE | **91.20%**

2019

SKILLS

- Programming Languages: C, Python, JavaScript
- Web Development: HTML, CSS, Bootstrap, PHP
- Database: MySQL
- Tools & Platforms: VS Code, XAMPP

INTERNSHIP AND WORKSHOPS

AI & Machine Learning Internship (1 Month)

ICT Academy of Kerala, Kozhikode

JUNE-JULY 2025

- Completed hands-on training in machine learning fundamentals, model building, and evaluation.
- Built and deployed the *Mobile Phone Price Prediction* project as part of the internship.

SEMINAR

Privacy Preserving Machine Learning with Federated Personalized Learning in Artificially Generated Environment

- Presented a technical seminar on the concept of federated learning and privacy-preserving machine learning.
- Explained decentralized model training and its applications in real-world sectors such as healthcare and finance

STRENGTHS

- Quick Learner
- Good Communication
- Team Player
- Adaptable
